Case illustration: **EMILY'S STORY³**

During gym class at school, Emily is playing basketball. She trips, falls hard on her knee and hits her head on the gym floor. She's taken to the emergency room (ER) by ambulance. In the ER, Emily's knee is examined by the doctor with an X-ray, and she has a CT scan to check for a head injury. She's diagnosed with a dislocated knee and a concussion. Her knee is adjusted and put in a brace, and she's released from the ER. Emily visits her family doctor for follow-up care, and has regular physical therapy (PT) sessions for her knee.
